- Google Doc, Sheets, Slides & more (free)
- Google Workspace (subscription plan)
- Microsoft 365 Online

- Screen Capturing
- Accounting

- Both LibreOffice & Apache OpenOffice have stemmed from a common open-source platform OpenOffice.org.
- LibreOffice, has been developing quickly and releasing new versions frequently. Apache OpenOffice is released a much slower pace.
- LibreOffice closer to MS Office , Apache OpenOffice closer to Google Docs
- Both LibreOffice & Apache OpenOffice are installed on PC (*not cloud based*)
- LibreOffice emerges as a better option out of the two in the battle of LibreOffice vs Apache OpenOffice . The interface, templates, and Wizard make the former rank higher. You can import, save, and use modern file formats, making this productive office software an intuitive word processor.
